that such searches will be conducted in the same subclass as well. Pursuant to M.P.E.P. § 808.02(C), where “the classification is the same and the field of search is the same and there is no clear indication of separate future classification and the field of search, no reasons exist for dividing among related inventions.” (Emphasis added.) Applicants respectfully assert that the Groups I, II, and III claims are so closely related that the search for each claim will overlap. Therefore, Applicants respectfully request that the Examiner withdraw the restriction requirement between the Groups I, II, and III claims.

The foregoing is submitted as a full and complete response to the outstanding Election/Restriction requirement. Early and favorable consideration of the claims is requested. If the Examiner believes any informalities remain in the application which may be corrected by Examiner’s amendment, or there are any other issues which can be resolved by telephone interview, a telephone conference to the undersigned attorney at (404) 745-2461 is respectfully solicited.

Respectfully submitted,
